

Workshop on Natural Language Processing and Speech Signal Processing

Call for papers

Aim and Scope

NCS 2013 Workshop on Natural Language Processing and Speech Signal Processing intends to provide a forum for researchers, educators, and professionals to exchange their discoveries and practices. The workshop also explores future trends and applications in these areas and other related areas. Your participation at the workshop would be an excellent opportunity for you to meet other researchers and to discuss the technology advancements. The 2013 National Computer Symposium (NCS 2013) will be held from December 13-14, 2013 at Asia University, Taichung, Taiwan.

Topic of Interest

Areas of interest include, but are not limited to, the following topics:

- Natural language processing
- Language modeling, generation, and learning
- Computational and corpus linguistics
- Multilingual/cross-lingual language processing
- Machine translation
- Speech and audio analysis, synthesis, coding, and enhancement
- Speech recognition
- Spoken dialog system
- Speech production and adaptation
- Speaker recognition, identification, and verification

- Spoken language understanding, translation, summarization, mining
- Auditory modeling, acoustic modeling and source separation
- Music application
